ABOUT THE EVENT

OBJECTIVES:

The main objective of Water Conservation Day is to accelerate change to solve the water & sanitation crisis. Dysfunction through the water cycle undermines progress on all major global issues, from health to hunger, gender equality to jobs, education to industry, & disasters to peace.

EVENT:

The event was started by writing a slogan for water conservation day. This slogan competition is kept for students so that we can come to know how students are coming out with different methods to conserve water. What precautions can be taken in the future to avoid scarcity?

OUTCOMES:

The event was also a great opportunity for the students to learn about the importance of water and their role in maintaining ecological balance. The students learned about the various benefits of water, such as maintaining ecological balance, improving air quality, and contributing to the biodiversity of the region.
