Team KLEF NSS participated in the Plantation Drive program on 18-09-2021. All the necessary arrangements were done a day before. Mrs. Bhavani Sushma D(Programme Coordinator), KLEF NSS Cell, Mrs. Deepthi Thota (Coordinator) CEA along with NSS Student Advisory team has arranged all the necessary arrangements that are needed for the successful implementation of the event.

Since the beginning, trees have furnished us with two of life’s essentials, food and oxygen. As we evolved, they provided additional necessities such as shelter, medicine, and tools. Today, their value continues to increase and more benefits of trees are being discovered as their role expands to satisfy the needs created by our modern lifestyles.

Trees contribute to their environment by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. You can grow your own fruit or nuts in your backyard. By planting fruit or nut plants in your yard, you can produce abundant food for yourself and your family, and perhaps even enough to share with friends, neighbours, other family members, and others in your community.
